U.S. Environmental Protection Agency Reviews Cleanup at Monroe Twp. Landfill Superfund Site

The U.S. Environmental Protection Agency (EPA) is conducting its **fifth** Five-Year Review of the **Monroe Township Landfill Superfund Site** located in Monroe Township, Middlesex County, New Jersey. This review seeks to confirm the cleanup conducted at the site, which included: 1) capping of the landfill which includes surface water control; 2) installing a leachate collection system; 3) installing a gas ventilation system; 4) installation of perimeter fencing to restrict access; and 5) implementation of a monitoring program to ensure the effectiveness of the remedy continues to be protective of public health and the environment and is functioning as designed.

A summary of these activities and evaluation of the long-term protectiveness of the remedy will be included in the upcoming Five-Year Review report. The report is scheduled to be completed by **10/23/19**.

What is an EPA Five-Year Review?

EPA inspects Superfund sites every five years to ensure that cleanups conducted remain fully protective of human health and the environment. These regular reviews, which are required by federal law when contaminants remain at a site, include:

- Inspection of the site and cleanup technologies;
- Review of monitoring data, operating data, and maintenance records, and
- Determining if any new regulatory requirements have been established since EPA's original cleanup decision was finalized.

For more information

There are several ways to review information on this site. The Administrative Record, which includes EPA documents used for selecting the cleanup plan, is available for public review at:

Monroe Township Public Library
4 Municipal Plaza
Monroe, NJ 08831
(732) 521-5000

OR

EPA Region 2, Superfund Records Center
290 Broadway, 18th Floor
New York, NY 10007-1866
Phone: (212) 637-4308
